

Resuscitation and emergency care products

The complete solution

Intersurgical can offer you a complete range of products for use in an emergency and resuscitation situation. From initial mouth-to-mask ventilation, to airway management, oxygen therapy and accessories.

Bag-Valve-Mask (BVM) resuscitators

In an emergency situation time is vital, there is no opportunity to check patient history and expensive re-usable equipment can often become contaminated. To avoid cross infection from blood, vomit and secretions we offer a complete range of single-use BVM resuscitators for use in resuscitation and emergency care.

| Code | Description | Mask Size | Box Qty. |
|---------|---|-----------|----------|
| 7152000 | BVM resuscitator, adult, 1.5L bag | 5 | 6 |
| 7153000 | BVM resuscitator, small adult/paediatric, 1L bag with pressure relief valve (40cm H ₂ O) | 4 | 6 |
| 7151000 | BVM resuscitator, paediatric, 550ml bag with pressure relief valve (40cm H ₂ O) | 3 | 5 |
| 7154000 | BVM resuscitator, paediatric, 550ml bag with pressure relief valve (40cm H ₂ O) | 1 | 5 |
| 7150000 | BVM resuscitator, infant, 280ml bag with pressure relief valve (40cm H ₂ O) | 1 | 5 |

Pocket resuscitation mask

The quick and convenient, ready to use resuscitation mask

Allows you to give immediate respiratory support to your patient without compromising yourself. Vastly improving the hygiene of mouth-to-mouth resuscitation, the one-way protection valve means gas can pass from the resuscitator to patient without any physical contact between two, minimising the risk of cross contamination. The soft cuff moulds itself to the contours of the patient's face providing a comfortable air-tight seal, and the crystal clear mask makes for perfect visualisation of the patient's colour giving an immediate indication of the effectiveness of respiratory support. Any vomit, mucous or foreign body blocking the patient's airway can be easily seen. Fitted with a standard 15mm male connector, it will fit our standard resuscitation and breathing systems. An oxygen connector allows for the delivery of supplementary oxygen.

The one-way protection valve allows gas to pass from the rescuer to patient without any physical contact between the two

Adult bagging systems – Mapleson C

The versatile Mapleson C System is ideally suited for use in intensive care, recovery areas and accident and emergency departments. Used for induction of anaesthesia, resuscitation, patient transport and ‘bagging’, the system offers more ‘feel’ of the patient’s lung compliance than that provided by a BVM resuscitation system.

Paediatric bagging systems

Available in 0.5 and 1 litre options, this paediatric version of the universally accepted adult bagging system incorporates a CO₂ monitoring elbow at the patient connection for direct sampling. This system can be utilised in a wide range of clinical applications including physiotherapy, patient transfer, resuscitation, and may be used for both spontaneously breathing and hand ventilated patients in theatre and recovery.

One-piece Guedel airways

Safer by design

By using the latest manufacturing technology Intersurgical has produced the first major breakthrough in Guedel airway design for thirty years.

Combining two materials with very different physical characteristics into one moulding, our One-piece design eliminates the separate bite block found in all conventional Guedel airways.

Loose or detached bite blocks constitute a real threat to patient safety and have been the subject of several hazard notices in the past. Our One-piece design overcomes all of the associated risks.

As well as improved safety, the One-piece also incorporates a soft tip reducing the risk of trauma to the patient. We also offer a sterile option, providing a further choice.

i-gel® supraglottic airway

For use in anaesthesia and resuscitation

i-gel is a truly unique, single use, latex and PVC free second generation supraglottic airway management device that represents the culmination of years of extensive research and development. Made from a medical grade thermoplastic elastomer, i-gel has been designed to create a non-inflatable, anatomical seal of the pharyngeal, laryngeal and perilaryngeal structures whilst avoiding compression trauma. i-gel is currently available in seven sizes and is supplied in an innovative, colour-coded polypropylene protective cradle or cage pack.

www.i-gel.com

▶ Video available at www.intersurgical.com

15mm connector

Reliable connection to any standard catheter mount or connection

Proximal end of gastric channel

Clearly displayed product information

For quick easy reference. Includes confirmation of size and weight guidance

Position guide (adult sizes only)

Easy confirmation of optimum insertion depth

Gastric channel

The i-gel incorporates a gastric channel (except size 1). It provides an early warning of regurgitation, allows for the passing of a nasogastric tube to empty stomach contents and facilitates venting

Integral bite block

Reduces the possibility of airway channel occlusion

Buccal cavity stabiliser

Aids insertion and eliminates the potential for rotation

Epiglottic rest

Reduces the possibility of epiglottic 'down folding' and airway obstruction

The non-inflatable cuff

Made from a unique soft gel-like material allowing ease of insertion and reduced trauma

Distal end of gastric channel

i-gel® O₂ Resus Pack

i-gel[®]O₂[™]

For use in anaesthesia and resuscitation

The i-gel O₂ Resus Pack puts the things you need at your fingertips. The pack contains an i-gel O₂ second generation supraglottic airway, a sachet of lubricant, an airway support strap and a suction tube, all packaged in a specially designed clear, sterile rigid pack. This unique design ensures protection of the contents, both in transit and in storage. Available in three adult sizes, the i-gel O₂ has a colour-coded hook ring to allow quick and easy size identification.

Plastic single use laryngoscope blades

Intersurgical plastic single use laryngoscope blades provide a safe, strong, light and cost-effective alternative to reusable metal versions. The range of Miller and Macintosh blades provides effective illumination and visualisation of the airway to aid with intubation and airway clearance. Our blades are compatible with the ISO7376-3 green specification handles, as indicated by the green dot near the heel of the blade.

High optical light transmission

Provides the user with an excellent light transfer to the blade tip

Engagement to handle click mechanism via two plastic lugs

Provides secure and positive connection of the blade to the handle

Single construction blade made from high impact grade ABS plastic

Rigid blade which is a cost effective, disposable alternative to reusable and disposable metal blades

Ultra smooth blade with matt finish

Smooth transition into the airway and easy passage of the tube, with no light reflection off the blade

QuadraLite™ anaesthetic face masks

A truly unique anaesthetic face mask

Unlike traditional face masks, QuadraLite does not use an inflatable cushion. Innovative moulding techniques have enabled the combination of two ideally suited materials to create a face mask with an anatomical shape and soft seal. This provides a comfortable superior airtight fit with a clear shell to enhance patient face visibility.

Four sizes for all patients

The QuadraLite range has only four sizes instead of the traditional seven, providing a solution for all patients due to its unique anatomical shape and requirement for minimal downward pressure to achieve an airtight seal.

| Code | Description | Box Qty. |
|---------|--|----------|
| 7194000 | QuadraLite, anaesthetic face mask, size 4, large adult, green seal, 22F (equivalent to traditional mask sizes 5–6) | 35 |
| 7193000 | QuadraLite, anaesthetic face mask, size 3, medium adult, yellow seal, 22F (equivalent to traditional mask sizes 3–5) | 35 |
| 7192000 | QuadraLite, anaesthetic face mask, size 2, small adult, white seal, 22F (equivalent to traditional mask sizes 2–3) | 25 |
| 7191000 | QuadraLite, anaesthetic face mask, size 1, infant, grey seal, no hook ring, 15M (equivalent to traditional mask sizes 0–1) | 30 |
| 7089000 | Anaesthetic face mask hook ring for both QuadraLite and EcoMask with 22mm port | 150 |
