Humidifier electrical adaptor leads

In a busy ITU there are many different types of equipment and consumables to deal with. In order to streamline your active humidification breathing system requirements, Intersurgical offer a variety of electrical adaptor leads enabling you to standardise on one heated wire breathing system, dual or single, which can be used on the humidifier bases shown below.

Code	Description	Box Qty.	Humidifier
560000	 Electrical adaptor lead for single heated wire breathing systems (clover leaf connector)	1	 PMH7000, MR850™
560100	 Electrical adaptor lead for dual heated wire breathing systems (clover leaf/oval connectors)	1	
560300	 Electrical adaptor lead for single heated wire breathing systems (clover leaf connector)	1	MR730™ 
560400	 Electrical adaptor lead for dual heated wire breathing systems (clover leaf/oval connectors)	1	

MR850 and MR730 are trademarks of Fisher & Paykel Healthcare.
